

Brooklyn Public Library

Sesame Street is all over the world. Over 120 countries have developed their own version of Sesame Street, some are shown here in this room.

All over the world, the character of “Big Bird” is changed to represent that country. Below you can see the “Big Bird” or “Abelardo Montoya” from Mexico...

With a partner, choose a country that is shown here in the Youth Wing, and brainstorm what you would think would be the best “Big Bird” to represent the country. At the end of the time we will see how close your drawing and findings are to the “Big Bird” that Sesame Street created for that country.

Use the encyclopedias, country books, or any other materials in the library to find what the **NATIONAL BIRD** is for that country.

Learn about the national bird, and fill out as much as you can below:

Name: _____ Color: _____

Size: Small / Medium / Large Favorite Foods: _____

Find a picture of the national bird so you can draw your “Big Bird” below:
